

## Civil Engineer Project Manager

**Lose Design** is seeking talented *Civil Engineer Project Manager* to join our team in our Knoxville, Tennessee office.

At Lose Design, we create SPACES FOR LIFE which support the most fundamental human needs to live, work, and play. We approach each project with the needs of both the client and community in mind, which allows for a balance between budget, function, and aesthetics. We work collaboratively and are dedicated to creating a work environment that promotes staff growth and enlightenment in all phases of the design process, expands knowledge of technical proficiencies for each design discipline, and fosters a work environment that extends beyond the office and into the communities where we live.

Our clients seek a passionate and approachable design partner and we respond with a single source of responsibility for architecture, landscape architecture, civil engineering, and planning services. This results in better communication, accurately coordinated documents, and a faster, more responsive delivery for our clients.

As a member of our multi-disciplinary team, you would have the opportunity to work on a variety of projects located throughout the United States.

### **Civil Engineer Project Manager**

Candidates for the *Civil Engineer Project Manager* position must be a licensed professional with a minimum of five (5) years of experience. Candidates shall be proficient in AutoCad/Civil 3D, Microsoft Office and other related engineering software programs. Candidates should prove skills in leading a team in the production of civil site projects and managing clients, with experience in site design, utility, hydraulics, hydrology, and roadway design.

The successful candidate must be able to work both independently and collaboratively with Lose Design team members and clients. The ideal candidate must also be an efficient, organized, self-starter that can manage simultaneous, deadline-driven projects.
